

# KUNSTHAUSBASELLAND

**Press release from April 22, 2021:  
Building permit for the new Kunsthaus Baselland in Dreispitz granted**

The new Kunsthaus Baselland at Dreispitz, Buchner Bründler Architects

**At the beginning of November 2020, the Kunsthaus Baselland Foundation and the Kunstverein Baselland applied for a building permit for the new Kunsthaus Baselland in Dreispitz. On April 13, 2021, the Building Inspectorate of the Canton of Basel-Landschaft granted the Kunsthaus Baselland Foundation permission to build the new Kunsthaus in Dreispitz. An important milestone has thus been reached, bringing us closer to the conversion of the current Dreispitzhalle into a meeting and exhibition venue according to the plans by Buchner Bründler Architekten. The next stage is now planning the execution in detail with a view to holding the groundbreaking ceremony after the summer vacation.**

In 2023 the Kunstverein Baselland will put the new Kunsthaus in Dreispitz into operation. The basic financing has been secured, and additional donations are currently being acquired for the exhibition infrastructure, among other things. With the new Kunsthaus Baselland in Dreispitz, the region will have a new building for contemporary art that meets the modern requirements of an exhibition facility, adding another important player and stimulus to the up-and-coming Dreispitz area alongside its numerous other cultural institutions.
