**Dear members of the Kunstverein Baselland**

**We are delighted to invite you to a special insight into the archive of the «Jacques Herzog & Pierre de Meuron Kabinett, Basel» in Münchenstein, which is otherwise only accessible to the public to a limited extent. The non-profit foundation was established by the two office founders in 2015 and consists of three sub-cabinets – architecture, art and photography. While the architecture cabinet holds all the models, plans, drawings and other process materials produced, collected and archived in the offices of Herzog & de Meuron since 1978, the art cabinet contains a collection of works by artists who accompanied the architects on their journey. The photography cabinet houses Ruth and Peter Herzog's extensive photo collection, which the foundation acquired in 2015.**

**Accompanied by the director of the cabinet, Esther Zumsteg, this certainly very exciting tour will once again show us the valuable and outstanding neighborhood for cultural exchange in which the Kunsthhaus Baselland itself is now allowed to operate.**
